Effortless Drone Fleet Deployment

Hive
Expedition

Hive

Hive-XL

Extend your mission flight time

Sentien's Hive launches 12-80 UAS for 24/7 continuous mission operations at the press of a button, while using the UAS you already have.

Any Drone, Anywhere

The Hive Expedition launch, recovery, and recharge system houses 12 drones that can be deployed at a moment's notice anywhere you find yourself needing on-demand situational awareness.

Full-Featured Mission Planning

HiveOS handles airspace management, automatically swaps out depleted drones, and makes flying persistently pushbutton simple (3rd party flight planners supported). Mission types include:

- Target Tracking
- Patrol Routes
- Persistent Stare
- Payload Delivery
- Mapping/Survey
- Comms Relay
- Object Detection
- Sensor Deployment
- A.I. at the Edge

The Hive systems are designed to integrate the latest UAS on the market. Allowing you to keep up with the latest technology without getting vendor locked.

- Teal, Golden Eagle
- Skydio, X2D
- Parrot, Anafi USA
- Autel, Evo
- DJI, Mavic 2
